

# BE AN EDUCATED EDUCATOR

Etiwanda School District

Connected educators are engaging, caring, and prepared. Effective educators examine their practice regularly to make adjustments in, not only their growth, but their students. Etiwanda teachers continually strive to build knowledge through research-based practices and ongoing collaboration.

## Professional Development

Ongoing face to face sessions provided by district or outside contractors.

## Communities of Practice

Weekly collaboration between grade level teams.

## Coaching

One on one support.

## Academic Standards

Develop understanding of content area academic standards through deconstruction.

## Adopted Materials

Training on effective use of state approved, standards-aligned materials.

## Technology

Instructing teachers on technology devices, applications, and use to enhance student interactions with programs.

## Accommodations and Modifications

Understanding and planning for designated and integrated instructional approaches that support at-risk, English learners, and achievement gap students during core and universal access teaching.

## Engagement

Training and supporting on positive classroom interactions, equity, and engagement through Kagan Cooperative Learning.

## English Learner

Supporting teachers in developing the strategies needed to provide all EL students with access to grade level content and standards mastery.
